**5. Poison from the Coal Seam
(What shall we do with
the Drunken Sailor?)**

What shall we do
with the poison water?
What shall we do
with the poison water?
What shall we do
with the poison water?
Poison from the coal seam.

Chorus:
Who gave consent to pump up?
Who gave consent to pump up?
Who gave consent to pump up?
Poison from the coal seam

2. Pump it back
near the deep Artesian
3. Filter it a bit then call it healthy
4. Spray it in the air
and disperse the poison
5. Hold it in a pond
till the rainy season
6. Let it overflow in the
creeks and rivers
7. Wait till it's found
in the crops and cattle
8. Say that it's not from
the coal seam drilling

**6. These Gates are made for Lockin'
(Boots are made for walking)**

You keep saying
you've got energy for me
Something you call safe,
but confess,
Gas' been leakin'
where it shouldn't be leakin',
And your fracking poison
I don't call progress.

**These gates are made for lockin',
And that's just what they'll do**
All over this State these gates
Are gonna lock in front of you.

You keep lying,
when you oughta be truthin',
and you keep losin'
when you oughta not bet,
You been gamblin'
with our Great Artesian,
Now what's right is right,
but you ain't been right yet.

**These gates are made for lockin',
And that's just what they'll do**
All over this State these gates
Are gonna lock in front of you.

You keep frackin'
where you shouldn't be frackin',
You keep thinkin'
that you'll never get burnt.
Ha! Well I saw a kitchen tap
lit up with matches, yeah
And you corporations,
now's your time to learn.

**These gates are made for lockin',
Etc**

**To end – Are you ready gates?
Start lockin'!**
