

3. Bimblebox (Jingle Bells)

By 6degrees Brisbane

Dashing through approvals
With a fast track government
Under fields they go
Farmers to torment
Nature to destroy
Wallets all to fill
Palmer's in the Parliament
And he's out there for the kill.

Bimblebox, Bimblebox
Clive he wants a mine
No more birds or reptiles there
Palmer thinks that's fine, hey!

Bimblebox, Bimblebox
Digging up the land
Save our nature refuges
That's what we all demand.

One-day we'll win the fight
And sense will win the day
Clive will do what's right
Solar all the way!
It's where the future's at
Leave coal in the ground,
Protect our nature refuges,
The best answer around.

Bimblebox, Bimblebox
Clive he wants a mine
No more birds or reptiles there
Palmer thinks that's fine, hey!

Bimblebox, Bimblebox
Digging up the land
Save our nature refuges
That's what we all demand.

4. Climate Change (Baby Face)

Climate change
We've got ourselves a little
Climate change
More than the weather is now
going strange
with Climate Change
my poor heart is thumpin'
we sure have started somethin'

Climate Change
We like the temperature in
The USUAL range!
The pollies need a shove
To save this earth we love
Cut fossil fuels,
cut Climate Change

Climate Change
How can we leave our kids with
Climate Change
They'll grow up anxious,
hungry & deranged
by a climate changed
Way beyond recognition,
We need a wise decision

Climate Change
We like the temperature in
the USUAL range!
The pollies need a shove
To save this earth we love
Cut fossil fuels,
cut Climate Change

8. I'm a Believer

I thought climate change
was just a fairy tale
Meant for someone else
but not for me,
Carbon out to get me,
What a nasty dream,
Spoiling all my luxury schemes.

That I could not face,
so I'm a denier,
There's just a trace
of doubt in my mind,
But I'm in fear
Ooh Ooh I'm a denier,
Full of desire to stay blind.

The seasons used to be
a God-given thing,
Spring was cool
and summer not too hot,
But Winter is too cold now,
The cyclones are a pain,
When the farmers need the sunshine
they get rain.

So the facts I face,
now I'm a believer,
Not a trace of doubt in my mind,
Climate change,
oo oo I'm a believer,
We can save her if we try.

(Tony won't hear facts,
says he's a denier,
Scrap the carbon tax,
he's out of his mind,
And his mining mates,
ooh ooh rich deniers,
with lobbyist liars, highly paid.)

But Winter is too cold now,
The cyclones are a pain,

When the farmers need the sunshine
they get rain.

So the facts I face,
now I'm a believer,
Not a trace of doubt in my mind,
Climate change,
ooh ooh I'm a believer,
We can save her if we try.

9. Dough for Me tune: "Do-Re-Mi" Parodied by Lismore/Bentley Mob

Let's start at the very beginning
The very best place to start
When you read
you begin with ABC,
When you mine you begin with
'Dough for me', 'Dough for me'
The very first thoughts just
happen to be 'Dough for me'

(Spoken) "let's see if I can make
it easier ..."

Dough for those already rich,
Rai-sing toxins in the air,
Me-aning we will suffer too,
Far or near no matter where,
So persistent is the risk,
La-sting on and on and on,
Tee-tering on the edge of doom,
So the rich can have more
Dough, dough, dough, dough

(Repeat chorus once more)

10. Renewables are all About (Do The Hokey Pokey)

Put more investment in
Send incentives out
In, out, in, out
Spread them all about
It's not hocus pocus, Just turn it on
Renewables are all about

**Oh, it's not hocus pocus!
If only the government
would focus
Fossil fuels they nearly broke us
Renewables are all about**

You put your solar up
Switch the savings on
Up, on, up, on
The roof where it belongs
It's not hocus pocus, just turn it on
Renewables are all about.

**Oh, it's not hocus pocus!
If only the government
would focus
Fossil fuels they nearly broke us
Renewables are all about**

More wind power in
Is less carbon out
In, out, in, out
Together we will shout
It's not hocus pocus, just turn it on
Renewables are all about.

**Oh, it's not hocus pocus!
If only the government
would focus
Fossil fuels they nearly broke us
Renewables are all about**

11. Less is More (3 Blind Mice ROUND)

Less is more, Less is more
Good for everyone,
good for everyone

There's more than enough
for the world to share
by living simply and taking care
With solar, wind and more local fare
Less is more

Singing out for Climate Action

\$2

Or more if
you like it!

**Carbon Canaries is an online song resource, sharing
creative ways to start conversations about climate change.
If you are getting together with others to sing these songs,
welcome to the Carbon Canaries flock!**

1. Who do you think you are Kidding Mr. Palmer? (Dad's Army)

Who do you think you are
kidding Mr. Palmer
If you think we're on the run?
We are the ones
who will stop your little game,
We know that coal mining's
scary and insane,

So who do you think you are
kidding Mr. Palmer?
If you think you've Queensland won?

So watch out Mr. Palmer,
You'd best pull up your socks.
We'll save you from bad Karma
While saving Bimblebox

So who do you think you are kidding
Mr. Palmer?
If you think we're on the run!

2. Switch to the Sunshine (You are my Sunshine)

We'll use the sunshine
Mostly the sunshine
Some wave & wind pow'r
when skies are grey
**Savings colossal
without a fossil**
So switch to the sunshine today.

Invest in sunshine
Insist on sunshine
Unplug that thing, skip out and play
be an outdoor sort
on public transport
and switch to the sunshine today.

Rpt first verse with alternative lines:
Fossils are comic, Uneconomic
So switch to the sunshine today
and Repeat again ...
Water gets heated, big bills defeated
So switch to the sunshine today
